Address:

Port Orchard

Price:

3000.00 \$

Home made camper on a 2008 ALUMA utility trailer. Insulated on top, bottom, sides, front and back. Metal roof, inside has 1 shelf, not painted or decorated, 2 large windows, new brake lights, and title in hand. I built it to fit in a garage. We used it several times as it was being built and it is very cozy. We would keep it but the wife prefers glamping. The trailer itself will need new tires soon and the storage area has a few dents. It comes with a home made bed that folds into a couch. It can also be used as an insulated utility trailer.
